ISLAMABAD

9th May, 2012.

PAKISTAN

Dear

Shah Sahib.

The Ministry of Interior after thorough probe into the allegations leveled against ZARCO and its major shareholder, and after obtaining legal opinions in the matter have reached a definite and firm conclusion that illegal and undue efforts have been made to victimize and cause colossal loss to the reputation, goodwill and business of ZARCO in Pakistan. The Ministry of Interior is taking serious action against all those involved. We wish that ZARCO should commence the business in Pakistan such as was done professionally with great transparency in the past so that ZARCO and you may once again generate foreign remittances/business to assist Pakistan to receive much needed foreign exchange and generate livelihood for around 1300 employees and their families associated with ZARCO.

2. We assure you that all possible efforts are being made to avoid any such incident in future and to protect ZARCO and your goodself from any illegal, immoral and unethical activities in future.

3. We are approaching all the concerned Departments to render necessary assistance in recommencement of ZARCO.

With regards, *heart felt regards.*

Yours sincerely,
